# Installing Python on your computer:

- Go to https://www.python.org/downloads/

- We will use version 3.5.* of Python.
    - Note: Version 2.7.* will **not work** for our examples!

- Select "Download Python 3.5.1"

- Run the installer on your computer:

Step 2: Select "Install now"

Step 1: Select this option

Running the IDLE Environment:

- Select

- Start->
  All Programs->
  Python 3.5 ->
  IDLE:
